How to Support Your Child with Anxiety

What is Anxiety?

Feelings (fear or worry)

Behaviors (avoiding or withdrawing)

Body Responses (fast heartbeat, short breaths, etc.)

Anxiety

At times, we all have anxiety. Anxiety can warn us of threats, guard us from danger, and help us reach our goals. However, anxiety can become a concern if one is worrying much of the time, avoiding fun activities, or not going to school.

Supports at Home

Feel Our Feelings •Anxiety can feel like butterflies in your stomach, a fast heartbeat, etc. Help your child know how her/is anxiety feels by asking these questions:

•What happens to your body when you begin to feel worried?

Connect Feelings to Thoughts

- •When we feel anxious, we may have unhelpful thoughts about ourselves. Help your child understand her/is unhelpful thoughts.
- •Example of negative thought: I am about to give a presentation, everyone is going to make fun of me.

Different Thoughts

- •When we know our unhelpful thoughts, we can stop them with helpful thoughts. Example of a helpful thought:
- •It's alright to be nervous, I worked hard on this presentation and I am ready!
- •With your child, make a list: *Instead of saying this (phrase), I can say this (phrase).*

Problem Solve

- •Help your child learn how to problem solve by asking these questions:
- •What could someone do to make this less scary?
- •Which options are useful?
- •Are any options NOT helpful?
- •What might be the best option?

How to Respond to Anxiety

"It sounds like your anxiety is acting up. What could you do to boss it back? Are there any helpful thoughts that you can tell yourself?"

"You already know the answer to that question. I am not going to answer that."

about this when you are calm."

HOW ANXIETY CAN LOOK

- -Never happy with schoolwork
- -Changes in eating or sleeping
- -Tantrums or negativity
- -Lower self-worth
- -Many school absences
- -Loss of interest in school activities

FACE OUR FEARS

Help your child face their fears. Develop a simple plan with your child that starts with small tasks that are anxiety provoking. Make sure to celebrate with your child when they get through an anxious situation.

RELAXATION APPS

Stop, Breathe & Think
